

Online E-Registration

The online registration process for returning students is currently available. This electronic process helps us to use less paper and makes the process more efficient for parents. If you have already set up your account, great! If not, please do so right away. The online registration is managed through the PowerSchool system and may be accessed by clicking the PowerSchool link on your school's website. If you have specific questions about your access ID or password, please contact the Kennedy main office. Also school fees for the new year may be paid online once the registration process is complete. You may also fill out our new online Free/Reduced Lunch application and waiver form.
